

Kendall

(actual size when printed on A4 paper)

Print this PDF to check how the frame measurements compare to your existing glasses.

To compare your current glasses against these style simply place them onto the image below, you can check the scale using our ruler.

Kendall are a classic style of full-rimmed bendable oval metal glasses. Ideal if you're prone to breaking your spectacles and need something more resilient. Soft adjustable nose pads and plastic arm tips offer a comfortable fit, while the thin oval shape would generally flatter angular features. Available in three metallic colours.
